FINAL COMMENTS

To keep in mind from the Kick-Off Meeting

TIME MANAGEMENT

‘..be more strict with the time dedicated to each session ..’

..’ The time dedicated to the project works was to short. The discussions were useful and the partners are suitable for a good project. ‘

‘ We have lost so much time in the beginning, so there was not enough time to discuss the really important questions ‘

COMMENTS

Some issues still remains

TIME FOR KEY DISCUSSIONS

‘.. the schedule for the meetings is too tight..’

..’ . I also think that some parts could have kept shorter’

‘I had the feeling as the last time in Florenz that it should have been longer in order to check all the aspect we needed to discuss or eventually better timed in order to give each

COMMENTS

STILL CONTENT AND DELIVERY MISFITS

‘.. the project is quite complex
all partners contributed to fixed tasks and methods to work.

..” that IO5 contents (training path) have to be the result of the partnership”

Feedback and suggestions - concerning the set-up of the C1- Training Session (planned in July 18) ’

AIMS

‘C1 training aim needs to be defined.’

TARGET GROUPS

‘.. select good participants in terms of interest in learning mentoring approach and new ICT tools, but also in terms of spreading the lessons at local level among colleagues and other stakeholders ’

COLLABORATIVE WORK FROM EXISTING MATERIAL

‘what i understood it will be about the technical issues more than about the contents. But i think it would be great to take this opportunity also to introduce the contents designed by each partner’

‘ ... we should work more in small groups on the subjects we have to discuss.’

TECHNICAL ISSUES

‘ ...difficulties that we can find in the schools with internet connection ...’

‘ ... I hope tere will time enough to analyse all the section of the platform.’

..’ the mentor training which could be delivered by partners in each country’
